

Ibrahim Adedokun

Frontend Developer

adedokuntobiloba100@gmail.com • <https://linkedin.com/in/tiskae> • <https://tiskae.netlify.app>

SUMMARY

Frontend Developer with four years of experience in developing and managing websites, web applications, and mobile applications. Proficient in Next.js, React.js, TypeScript, JavaScript, Python, SASS, and CSS. Possesses two years of experience in implementing backend services using Node.js, Golang, MongoDB, Google Cloud Platform, and AWS services. Led the frontend development of a digital physiotherapy web application that helps relieve back pain and improves posture; built a blog in 2 weeks with first page Google ranking. Good team communicator and collaborator with excellent English skills.

WORK EXPERIENCE

Frontend Developer

December 2021 – August 2024

FitSit • Prague, Czech (Remote)

- Led frontend development using React and SASS, implementing authentication, security, and state management with Redux. Improved user experience by overhauling >90% of the UI/UX codebase for reliability and cross-browser consistency.
- Coordinated effectively with backend, cloud, and design teams within an AGILE methodology while working fully remote. Successfully added translations using i18next to support multiple languages, and handled error and socket connections with precision.
- Spearheaded enhancements to the frontend codebase at FitSit as a Lead Developer, tuning every other aspect of frontend development to improve the speed and overall functionality of the website.

Frontend Developer

July 2022 – November 2022

Entre • Pittsburgh, Pennsylvania, United States (Remote)

- Developed a high-performing blog using Next.js framework, leveraging SEO best practices to achieve top Google search ranking and increase organic reach.
- Collaborated closely with cross-functional teams (product managers, designers, software engineers) to enhance platform functionality and user experience while performing code review and pair programming.
- Troubleshooted UI and technical issues and implemented new designs resulting in seamless platform performance.

Frontend Developer

January 2021 – September 2021

Digital Dada • Florida, United States (Remote)

- Developed websites for the company's clients improving customer satisfaction by >20%.
- Fixed design and application bugs from the QA teams to improve design and performance and satisfy the client's needs.
- Accomplished better code quality under the supervision and mentoring of senior engineers and learning from given resources.
